HOMEWORK HUB: SPORTS AND SPOTLIGHT

OUR PROGRAM

Homework Hub is a program that seeks to provide students with opportunities to succeed academically, personally, and socially. The name says it all. The Homework Hub offers students academic assistance outside of the classroom from teachers with experience in TEAM School programmes and expectations. We also value a student's need for success outside of their academics. We offer student choice-based activities that will allow them to take part in athletic, physical, and performance art based activities that will help develop their talents while also building strong friendships and social skills. Whether it be *Homework*, *Sports*, or stepping into the *Spotlight*, we are here to help.
